Biography

I am a motivated and enthusiastic student with a strong passion for mobile application development, dedicated to building high-quality, user-friendly, and efficient apps. I have hands-on experience in creating applications using Flutter and Dart, as well as a solid foundation in HTML, CSS, Python, and Android development. Eager to grow my expertise, I continuously explore new tools, frameworks, and best practices to stay ahead in the fast-paced world of app development. I enjoy turning ideas into functional, polished products, focusing on performance, intuitive design, and a seamless user experience. With strong communication skills, a collaborative mindset, and the ability to adapt quickly, I thrive in team environments where I can contribute to innovative projects from concept to deployment.

Education

Helwan University – Faculty of Commerce
Business Information Systems (BIS) Department
Expected Graduation: 2027

- Current GPA: 3.2
- Studying core subjects in information systems, business, and technology integration
